Green Dot Bioplastics Selected to Present at AGRI Tech Venture Forum

March 18, 2020

CEO Mark Remmert will pitch to a global delegation of investors, strategic partners and tech experts.

Green Dot Bioplastics, Inc. CEO Mark Remmert has been invited to present at the annual AGRI Tech Venture Forum in Toronto, Ontario.

NOTE: AGRI Tech Venture Forum, originally scheduled for April 30, has been postponed due to the COVID-19 pandemic. Remmert will present at the rescheduled event.

The AGRI Tech Venture Forum (https://agritechventureforum.com/) is an annual event that serves as a converging point for global ag tech leaders. Industry giants, investors, accelerators and innovators come together and provide insight on the latest sector headwinds, technology milestones and key challenges facing the future of the industry.

Companies and individuals must apply to present their innovations to AGRI Tech's global delegation of investors, strategic partners and tech experts. Promising applications are

selected to give a 10-minute presentation and engage in networking opportunities at the forum.

Keynote speakers include leaders from Microsoft, Canopy Rivers, Nutrien, BASF and Natural Products Canada. Other participating organizations include Better Food Ventures, Telus Ventures, IBM, Emerald Technology Ventures, Calgary Economic Development and Bayer.

About Green Dot Bioplastics, Inc.

Green Dot Bioplastics, Inc is a bioscience social enterprise headquartered in Emporia, Kansas. A full-service bioplastics company, Green Dot is dedicated to delivering the very best of sustainable materials to our customers. That’s the thinking behind our Terratek® line of bioplastics, developed to meet the growing demand for biobased and compostable materials with fewer of the drawbacks associated with traditional plastics.
